

COMMUNITY PLANNING & SERVICE AREA LIST
FY 09 Grantees

Alaska Behavioral Health Center List
Organized by Regions & Central Communities

The following is a list of the 31 Community Planning and Service Areas sponsored by the Behavioral Health (BH).

The list is organized by the current four regions used by the BH. Within each Region is a list of the central communities. Under the central community is a list of nearby communities that form a geographic service area.

All BH Treatment Program grantees are listed within a geographic service area. If there are more than one grantee within a service area, those agencies are required to coordinate their efforts to provide a continuum of behavioral health services; the agencies within a geographic service area form a local or regional Community Service and Planning network. There are 29 discrete local Community Service & Planning Areas and 2 regional Service and Planning Areas that provide behavioral health services across the State of Alaska. The regional Service and Planning Areas are not statewide but overlap with several local Community Service and Planning Areas.

The Behavioral Health Center with the Emergency Services/Disaster Response responsibility for that service area is identified with an asterisk. Each identified (*) Behavioral Health Center is responsible to provide 24/7 emergency services and participate in or initiate the development of a behavioral health component to the disaster plan in their community service and planning area.

Agencies identified with ** after their name are Substance Abuse Treatment providers.

The State of Alaska also supports a statewide 24/7 Crisis Call Line:

Careline at 1-877-266-4357

Anchorage Region

Anchorage
